

UNIT 3 > Projects

Lesson 3.1 Project management

VIDEO **A** ▶ 3.1.1 Put the sentences in the correct order. Then watch part of the video again (02:18–02:52) and check your answers.

- a The work resulted in even greater budget and schedule over-runs. _____
- b The engineers found that the cause of the problem was the way people’s bodies reacted to the very small movement of the bridge. _____
- c Engineers came up with the solution of attaching additional parts to the bridge to stop the movement. _____
- d The investigation was complicated and took a long time. _____
- e The bridge’s slight movement caused people to walk differently, and the change in their walking made the bridge move more. _____

Vocabulary **B** Match the expressions in bold with the correct meaning (a–f).

- 1 The movement of people walking made the bridge **wobble**.
 - 2 The engineers found a **solution to** the problem.
 - 3 The design of the bridge **resulted in** the unexpected movement.
 - 4 Project managers try to anticipate every possible **risk**.
 - 5 After discovering the problem, the engineers needed to make a new **schedule** for repairing it.
 - 6 Project managers always need to know what the **highest priority** is.
- a caused
 - b timetable
 - c sway
 - d way to fix
 - e main concern
 - f danger
